Barangay Disaster Risk Reduction and Management Plan

YEARS COVERED: (2024 to 2026)

Barangay: HINAPLANON

City/Municipality: CITY OF ILIGAN

Province: LONE DISTRICT OF ILIGAN

Region: X- NORTHERN MINDANAO

Vision:

A barangay where every resident is empowered, prepared, and actively involved in building a safe, resilient, and thriving community, capable of mitigating risks and thriving in the face of any disaster.

Mission:

To foster a culture of preparedness and resilience within the barangay, through collaborative efforts that prioritize:

Risk Reduction and Prevention: *Proactively identifying and mitigating disaster risks through community-based planning, infrastructure improvements, and education initiatives.*

Community Empowerment: *Equipping residents with the knowledge, skills, and resources to understand and manage risks, participate in preparedness activities, and support each other during emergencies.*

Effective Emergency Response: *Establishing robust systems and protocols for timely and efficient response to disasters, ensuring the safety and well-being of all residents.*

Sustainable Recovery: *Promoting rapid and equitable recovery from disasters, leveraging community resources and partnerships to rebuild stronger and more resilient infrastructure and livelihoods.*

Key Principles:

Community Ownership: Engaging residents in all stages of disaster risk reduction, from planning and implementation to response and recovery.

Collaboration and Partnerships: Working closely with local government agencies, community organizations, private sector partners, and other stakeholders to leverage resources and expertise.

Data-Driven Decision-Making: Utilizing data and technology to inform risk assessments, improve early warning systems, and optimize resource allocation.

Continuous Learning and Improvement: Regularly evaluating disaster preparedness and response efforts, adapting to changing conditions, and seeking opportunities for improvement.

BASIC INFORMATION OF THE BARANGAY

A. Barangay History

Long before Barangay Hinaplanon came into existence, the barrio was originally known as Tambo, a name derived from a tall grass called "tambo" which abundantly grew in the barangay. Barrio Tambo was then comprised of Hinaplanon, Cabaro, Linanggongan, Sombuyan, Luinab, Manggas, Bayug, Bayug Island, Ludo, and Bucana. The areas were devoted to corn and sugar production.

In the early seventies, these areas were teemed with people. Sometimes in 1965, a law was sponsored by Vice-President Emmanuel Pelaez who was then a senator. The enactment of the law calls for the registration of all barrios in the Philippines as a prelude to the coming election of Barrio Officials particularly the Teniente del Barrio. Before the law, the Teniente del Barrio was appointed by the *mayor*. The incumbent Teniente del Barrio at that time was Mr. Dioscoro Llanes, a resident of Hinaplanon. He had the name of the barrio registered as Hinaplanon, which surprises the residents of Tambo, through a Resolution Number 329, series of 1966 which was then enacted by the City Council of Iligan on January 20, 1967 and subsequently approved by the *city* mayor. Barangay Hinaplanon formally came into existence.

The name Hinaplanon was derived from the word "hinana", a medicinal plant effective for the treatment of skin diseases of the children and other skin illnesses.

The principal products of the barangay were corn and sugar. There were four corn mills in Tambo and three in Hinaplanon. In the entire barangay, there were six local sugar mills. Other products were coconut and bananas. Fish were also abundant along the shore particularly in Bayug Island.

The first barangay election for one year term of office of the Teniente del Barrio and five (5) councilmen was held in 1966 and the second was in 1967. In the 1968 election, the term of office of the Barrio Officials was increased to four (4) years. However, barrio officials who elected in 1968 were caught by the Declaration of Martial law in 1972 and they were on a holdover capacity until 1976, when an election was called for, to refresh the people's mandate.

Influx of people in Iligan City were experienced. Attracted and lured by the booming industrialization of the *city*, people all over the country came over to work and settle down in the place. This tremendously affected the barangays of Iligan and particularly Hinaplanon. The fields devoted to corn and sugar were converted to highways, subdivisions and residential areas. Because of the increase in population in some places of the barangay, some residents agreed to create their own barangay and separate from the mother barangay which is Hinaplanon. This leads to the creation of Barangay Sto. Rosario, Barangay Bagong Silang, Barangay Upper Hinaplanon, and Barangay Luinab.

Despite the creation and separation of the four barangays, Barangay Hinaplanon still possesses a land area of 551.54 hectares with a population of 15,424 as of the year 2022. It has 23 puroks, has two Day care centers and a complete Elementary and Secondary schools, to answer the educational needs of the people.

The Barangay Officials who administered the operations and responsible for the development of the Barangay for the current year is shown in Table No.

TABLE 1

List of Barangay Officials: CY 2023 – 2026

Administrators	2022-2023	2023-2024	2024-2025

Physical and Geographical Classification of the Barangay

Location and Boundaries:

Barangay HINAPLANON has a total land area of **551.54** (hectare), where 37.00 (hectare) used in agriculture, 514.54 (hectares) in residential, X (hectare) is timberland and X (hectare) are alienable and disposable land (A and D). The barangay is in the North-eastern part of Iligan City, Lone District of Iligan. It is 4 (in kilometer) away from city/municipal hall and it takes 9 minutes to reach the barangay hall. It is accessible by passenger jeepney, minibus, and motorcycle. It is bounded on the north by Barangay Sto. Rosario, on the east Barangay Luinab, on the west Barangay Santiago (name of barangay) and on the south San Roque.

ORGANIZATIONAL STRUCTURE

The Barangay Disaster Risk Reduction Management Committee (BDRRMC) is one of the committees of the Barangay Development Council which is designated by law (RA 10121, otherwise known as the "Philippine Disaster Risk Reduction and Management Act of 2010") to oversee and facilitate the activities for the safety and security of the population living in the community. The committee is responsible for implementing programs, projects and activities within the community or barangay to prevent or minimize the impact of natural or human-induced hazards to people, property, business, critical facilities and infrastructure, environment and other elements at risk in the community.

The BDRRMC, under the Barangay Development Council, has the functions to be implemented in accordance with RA 10121. These are as follows:

To approve, monitor and assess the implementation of the barangay disaster risk reduction management plan in accordance to the city or municipal and other higher-level programs and projects;

Ensure that the disaster risk reduction and climate change adaptation will be integrated into the local development plans, activities, projects and programs and will be funded as strategy for sustainable development and poverty reduction in the community.

Recommend for the strict implementation of mandatory and forced evacuation if there is a threat to the people, especially those who are living in a high-risk zones or areas; and

Convene the committee and conduct quarterly meeting or as needed.

The Organization of the BDRRMC

The committee consists of members of the council, representatives from education sector, church-based organization, civil-society organization and other vulnerable groups in the barangay. It is headed by the Punong Barangay as Chairperson. The following sectors should have an active and meaningful role in BDRRMC which is duly approved through an ordinance or resolution passed by the council.

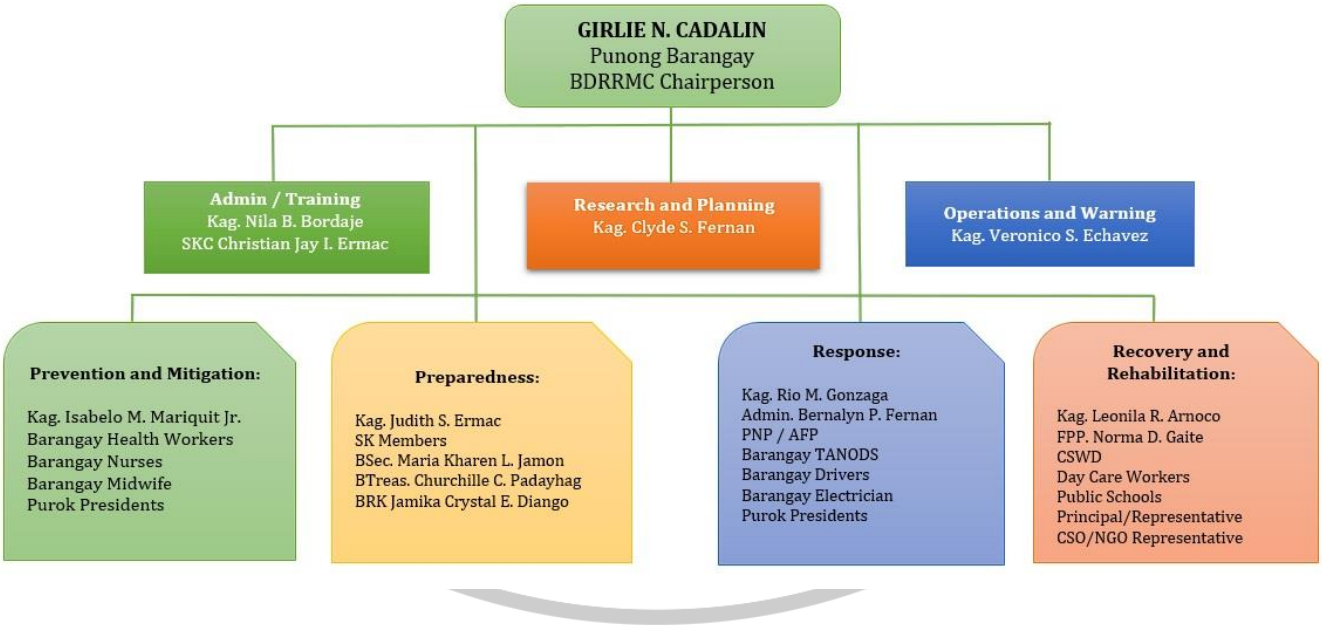

- Children Sector
- Youth Sector
- Women's Group
- Elderly
- People with Disability (PWD)
- Indigenous Peoples
- Farmer's Sector
- Fisherfolk
- Professional Group
- Church-Based Organization
- Private Sector
- Community/Barangay Police of Volunteer
- Overseas Filipino Workers
- Cooperatives
- Other sector or group in the barangay

The primary basis of the sectoral membership to BDRRMC is the legitimacy of the organizations with barangay programs or projects. A legitimate organization is duly registered, accredited to any authorized government agency or recognized by the Sangguniang Bayan or Barangay.

They must also actively participate in any barangay or community development activities. If they are not yet registered in any government agency, they may also submit a letter to the Sangguniang Barangay in order to identify them as a legitimate organization in the barangay.

The Barangay Council will provide evidence of the recognition that they are a legitimate organization that implements programs, projects and activities in the barangay through the Executive Order from the Punong Barangay or Barangay Resolution.

Proposed Barangay Disaster Risk Reduction Management Committee Structure

Composition:

The BDRRMC's overall leadership Girlie N. Cadalin is the responsibility of the Punong Barangay with the heads of the different sub-committees Kagawad Clyde S. Fernan with the support of the Operations and Admin Unit.

Every sub-committee will be headed by the Vice-Chairperson with the support of team leaders.

Each sub-committee will be led by the member of the Sangguniang Barangay while the Teams will be chaired by the sectoral organizations or groups representatives. The Chairperson or Team leader of the Teams will perform the tasks as required by the team. *(For example, the Education Team will be Chaired by the education representative (School DRR Focal or the Principal) in the committee)*.

Roles and Responsibilities of Administrative Support:

Ensures that all BDRRMC requirements are in place and are in good order, such as legal documents, forms to be used to provide immediate support and necessary actions to carry out a barangay activity or project;

Ensures that all plans, activities, Memorandum of Agreements / Memorandum of Understandings, BDRRM Plans and policies pertaining to DRRM and CCA are in place and available anytime.

Roles and Responsibilities of the Committee:

The Four Sub-committee (based on the four thematic area of DRRM)

- **Prevention and Mitigation / Research**

Conducts research and study on developing initiatives related to DRR and CCA;

Recommend measures on the implementation of environmental laws, such as but not limited to RA 10121, RA, 10821, RA 9729 and RA 9003;

Assists in the implementation of laws, programs, projects and activities to prevent or mitigate the impact of natural or human-induced hazards;

Initiates forest and mangrove planting and rehabilitation; and

Conducts risk, exposure, vulnerability and capacity assessments,

- **Preparedness / Planning and Training**

Provides support in the development and formulation of the quality BDRRM plan;

Provides support in the conduct of disaster preparedness activities such as training of response volunteers, orientation, seminar or any DRRM related activities;

Initiates the conduct of simulation exercise or drill to identified priority hazard in the community; and

Disseminates disaster preparedness information to public especially the high-risk areas.

- **Response / Operations**

Initiates the implementation of programs, projects and activities related to disaster risk reduction and climate change adaptation;

Establish appropriate community early warning system linked to the city/municipality and other higher level government agencies;

Initiates implementation of the forced and preemptive evacuation activities of families living in a high-risk area;

Ensures that warning signals are received by the affected population people especially those who are living in a high risk or danger zones on time with corresponding recommendation of what to do per level of warning or alert.

- **Recovery and Rehabilitation**

Assist in the repair and retrofitting of damaged public properties/infrastructures, critical facilities and social services;

Recommend to higher level of what kind of programs, projects and activities should be given to them through a participatory assessment, planning, implementation and monitoring; and

Roles and Responsibilities of Team or Group under the BDRRMC:

Communication and Warning Team

Monitors water level of the river, creek, dam or any water ways and the installed warning devices/instruments that provide information for possible flooding or landslide in the community and report immediately to BDRRMC or the Punong Barangay about the condition to make appropriate decision or action of the BDRRMC;

Provides accurate and timely information or warning for an early and prompt decision of the BDRRMC if the people living in a high-risk zones will be evacuated to a safe area;

Ensures that early warning system and protocol are in place and properly disseminated to the families likely to be affected by hazards

Ensures that the communication protocols are in place and tested regularly; and

Collaborates and engages other BDRRM sub-committees or local government agencies regarding BDRRM especially during emergencies or disasters.

Transportation Team

Ensures that there is a readily available functional transportation system in the barangay that can be used before, during and after emergency or disaster;

Conducts regular inventory of available transportation vehicle and its capacity to transport population from high risk to safe areas;

Coordinates private or business sectors for possible use of their vehicle especially during evacuation movement or any disaster related activities within the barangay;

Ensures that the private or business sectors are agreed to use their vehicle in times of emergency or disaster through a Memorandum of Agreement or Understanding.

Security and Safety Team

Ensures that all members of the community are safe especially in time of emergency or disaster;

Ensures that all facilities, equipment, supplies and materials of the BDRRMC are safe and free from any form of theft;

Provides security to the responders and the affected population during relief distribution in times of emergency or disaster;

Ensures that the evacuation centers or areas are safe from any intruders during emergency or disaster; and

Initiates in developing mechanisms for relief distribution and service delivery to the affected population.

Education Team

Ensures that children and youth are included in community-based disaster risk reduction and management and climate change adaptation activities in the community;

Ensures that the private and public organizations and agencies are involved in DRR and CCA activities;

Educates people especially the most vulnerable groups in the community on disaster risk reduction and management and climate change adaptation;

Develops information education campaign materials on DRR and CCA and share these to the public; and

Coordinates regularly to education sectors in the community for possible partnership on DRR and CCA advocacy and project implementation.

Protection Team

Ensures that all disaster risk reduction and management and climate change adaptation programs, projects and activities did not violate the rights of the people especially children, women, persons with disability, elderly and other vulnerable sectors or groups in the community;

Ensures that the vulnerable groups or sectors such as children, youth, women, pregnant and lactating mother, elderly, people with disability, indigenous people are protected and free from any harm before, during and after emergency or disaster; and

Assures compliance with the legal procedures for the implementation of disaster risk reduction and management and climate change adaptation laws in the barangay and other protocols, policies and guidelines related to DRRM.

Damage Control Team

Assists research and planning team in the conduct of rapid damaged assessment and needs analysis (RDANA) and post damaged assessment and needs analysis (PDNA);

Ensures that all affected structures, livelihood and other critical facilities brought by hazards are reported to BDRRMC and other concerned agency or organization for immediate and long-term intervention;

Initiates inventory of all possible damages to infrastructure, houses, evacuation center, livelihood and other critical facilities in the barangays that can be impacted by the identified hazards.

Research and Planning Team

Facilitates and supports risk assessment and contingency planning activities of the BDRRMC and other groups in the community;

Conduct research and development initiatives on barangays disaster risk reduction and management and climate change adaptation;

Initiates development of plans with appropriate mechanisms for monitoring and evaluation of the plan's implementation;

Ensures that all vulnerable groups or sectors such as children, youth, women, pregnant and lactating mothers, elderly, people with disability, indigenous people in the community are involve and participate actively in risk assessment, planning, implementation, monitoring and evaluation processes.

Roles and Responsibilities of the Team under Response Sub-Committee:

Rapid Damage Assessment and Needs Analysis (RDANA)Team

Conducts Rapid Damage Assessment and Needs Analysis (RDANA) using the simplified assessment template provided by the local governments and submit the report to BDRRMC or Punong Barangay;

Lists all affected population or families who need immediate assistance or support especially the vulnerable groups or sectors;

Submits complete and easy to understand RDANA reports to BDRRMC or Punong Barangay right after the event to decide if the committee ask immediate support from the higher-level local government units or private organizations.

Search, Rescue and Retrieval Team

Provides immediate assistance to population or families that need to evacuate or transfer from high risk to safe areas;

Leads in the conduct of search, rescue and retrieval operations during emergency or disaster; and

Assists higher level government units or responders in the conduct of search, rescue and retrieval operations during emergency or disaster.

Evacuation and Camp Management Team

Ensures that the information of each evacuee inside and outside evacuation center or evacuation area / site are complete and updated;

Ensures that all evacuation centers/sites are assessed and prepared before the occurrence of the hazards;

Makes sure that all evacuation centers/sites facilities and materials are available ready to use during evacuation.

Ensures that all persons or staff involved in evacuation and camp management are trained or at least have knowledge on camp management.

Relief Distribution Team

Ensures that relief management such as receiving, packaging, distribution and other aspect of handling goods either food and non-food items are in accordance to relief procedure and protocol of the barangay;

Makes sure everyone involved in relief distribution are trained or at least know how to properly handle and distribute the goods to affected population; and

Ensures that all affected population especially the vulnerable groups or sectors received sufficient amount of goods.

Health/First Aid and Psychosocial Support Team

Makes sure that there is an available basic medicine in the evacuation that can be used by the evacuees especially for children, youth, women, pregnant and lactating mother, elderly, people with disability and indigenous people;

Provides appropriate health and psychosocial intervention to affected population especially the vulnerable groups or sectors such as children, youth, women, pregnant and lactating mother, elderly, people with disability and indigenous people;

Ensures that health facility and material are readily available at the evacuation centers / sites and health centers

Fire Management Team

Assigns people at the Operation Center 24/7;

Provides immediate response to affected area or population and coordinates with the nearest fire stations as necessary

Initiates conduct of training on basic firefighting and management using the available materials within the barangay;

Requests necessary materials and equipment for fire suppression and safety paraphernalia for responders and volunteers to BDRRMC or Punong Barangay for outside fund sourcing;

Prepares map showing the available safe routes for fire trucks and responders going to the affected area.

Roles and Responsibilities of the Team under Recovery and Rehabilitation Sub-Committee:

Livelihood Team

Conducts study together with other groups or sectors in the barangay on the economic impacts brought about by the hazards or disaster;

Provides recommendations or solution about what they have learned and what long term solutions people can make in collaboration with higher government offices or agencies that people recovered or rehabilitated their livelihood.

Infrastructure and Shelter Team

Conducts study about the total cost of damages to infrastructure and shelter within the barangay; and

Submits the result of study with initial recommendations or suggestions for recovery and rehabilitation of damaged infrastructures and shelters.

Post Damage Assessment and Needs Analysis (PDANA) Team

Conducts comprehensive studies about the total damages caused by the hazards or disaster in the barangay for a long-term recommendations and solutions;

Records major damages to property, infrastructure and environment because of the hazards or disaster events; and

Submits consolidated result of the assessments and analysis to BDRRMC or Punong Barangay.

COMMUNITY RISK ASSESSMENT (CRA)

A Community Risk Assessment (CRA) or sometimes called as Hazard, Vulnerability and Capacity Assessment (HVCA) is a process that uses a participatory approach which enables the community to Identify potential hazards and determine the nature and extent of risks they pose. It determines also the strengths and opportunities available within the barangay that will help us minimize or at least cope with these risks.

It is a means to collectively analyze community vulnerabilities, highlight capacities and identify gaps for integrated and strategic investment of resources to reduce their occurrence or impact to population, property and environment.

Processes and Contents of Community Risk Assessment (CRA)

Barangay Disaster Risk Profile

Barangay Hinaplanon is one of the most densely populated barangays in Iligan City and lies along the flood-prone areas of the Mandulog River. The barangay covers 23 puroks, several of which are located in low-lying and riverbank areas, making them highly vulnerable to hydrometeorological hazards such as flooding, flash floods, and landslides.

On December 17, 2011, Barangay Hinaplanon was severely devastated by Typhoon Sendong (Washi), which brought unprecedented rainfall that caused the Mandulog River to overflow, resulting in massive flash floods. This disaster claimed hundreds of lives, displaced thousands of families, and caused irreparable damage to infrastructure, homes, and livelihoods.

Given its geographical location, Hinaplanon remains at high risk for recurring flooding, particularly during the rainy season and in the event of tropical cyclones. Climate change has increased the unpredictability of these hazards, intensifying the urgency for proactive disaster risk reduction measures.

Other hazards identified in the barangay include:

- Earthquakes, due to Hinaplanon's proximity to the Western Mindanao Fault.
- Fire incidents, especially in congested residential areas.
- Health emergencies, such as outbreaks of waterborne diseases post-flooding.

The community's socio-economic vulnerability, including the presence of informal settlers in hazard zones and limited access to resilient infrastructure, further compounds its risk.

This risk profile underlines the need for continuous investment in disaster preparedness, infrastructure resilience, early warning systems, environmental protection, and capacity building among residents to reduce the long-term impact of future disasters.

Disaster or emergency historical events in the community.

(List down all emergencies/disasters event happened in the community and its impact for the past 5 to 20 year)

Hazard Identification and Risk Assessment.

(Identify hazards either natural or human-induced and its probability to happen and possible impacts using the scale rating below)

Hazards	Probability	Impact	Remarks	Ranking
Flood	5	4	Drainage canals should be cleaned every week, de-clogging of waterways and small canals	1
Fire	4	4	Need to clear the roadways for easy access for firetrucks. Safety education to avoid fire.	2
Storm Surge	3	2	Educate the constituents near the shore for evacuation plan	4
Traffic Accidents		20%	More traffic signs like "Slow Down" and "Accident Prone Area".	3

Probability

1 – Most Unlikely
2 – Low Probability
3 – Perhaps
4 – High Probability
5 – Almost Certain

Impact

1 – Negligible
2 – Low Impact
3 – Maintain Impact
4 – High Impact
5 – Devastating

Vulnerability Assessment

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
Physical and Material Physical Characteristic of the place	√	Near the sea or shorelines
	√	Located along river banks
	☐	Near the mountains
	☐	Near or along the fault line
	☐	Near the volcano
	√	There is no proper drainage system
	☐	Soft soil in the residential areas
	☐	Deforested mountains
	☐	Presence of sinkholes
	√	Blocked canals or waterways
	☐	No proper waste disposal
	☐	Majority of the buildings have no ramps
	☐	There are many rocks on the edge of the mountain near the houses
	√	Majority of the buildings have no fire exits
	√	40% of houses are made up of light materials
	☐	Majority of the building and houses have no circuit breakers
	√	Majority of the buildings have no fire extinguisher
	√	Lack of response equipment and materials
	☐	Others *(please specify)*
Evacuation Center	☐	Lack of evacuation centers
	☐	There is an available evacuation center but no comfort room (separated male and female)

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
	☐	No available evacuation centers
	☐	There is an evacuation center but no ramp
Community Facility	☐	Signal of all networks in the evacuation centers are not available
	☐	No network signal in some areas in the barangay
	☐	Damaged roads
	√	Hospital is very far from the residents
	☐	No electricity
	√	1% of the population rely on level 1 water supply (deep well)
	☐	Others (*Please specify*)
Early Warning System (EWS)	☐	NO available EWS signage in the designated areas for a particular hazard
	☐	Lack of early warning devices or materials that provide real time warnings or signs to the community
	√	No available early warning or sign for people with disability (PWD)
	√	No specific early warning system for specific hazard
Barangay Disaster Operation Center	√	No designated Barangay Disaster Operation Center (BDOC)
	√	
	√	Barangay Disaster Operation Center (BDOC) has no standby generator

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
Household/houses	√	40% of houses are made up of light materials
	√	20% of houses living near the river
	☐	__% of houses living near the mountain
	√	5% of houses are illegally constructed
Livelihood	√	Majority of the population in the barangay are concentrating only in one livelihood or source of income
	√	Lack or limited livelihood opportunity
	☐	Others *(please specify)*
Social and Organizational		
BDRRM Committee	☐	BDRRM Committee is not organized
	☐	There is no clear roles and responsibilities of the BDRRMC members
	√	Lack of capacity of the BDRRMC members because they don't have enough trainings or capacity building activities
	√	20% of BDRRMC members are not active
	√	10% of the members are not aware with DRR and CCA laws and their functions
	√	30% of the BDRRMC members are not aware with RA 10121, RA 10821 and other related policies
	√	BDRRMC has no regular meeting
	☐	Others *(please specify)*
Civil Society Organization	√	There is an existing community organization but no knowledge of DRRM or CCA
	√	There is an existing community organization, but they don't have specific programs, projects or activities on DRRM or CCA

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
	√	There is an existing organization, but they don't participate in barangay activities specifically on DRRM or CCA
Attitudinal or Motivational		
People think and feel	☐	People didn't respect the barangay officials and other leaders in the community
	☐	Majority of the population in the community are not following the government instructions especially during evacuation activities
	☐	Majority of the community leaders or officials didn't motivate people to participate in community development activities
Initiative to help others	☐	Others do not care about their neighbors

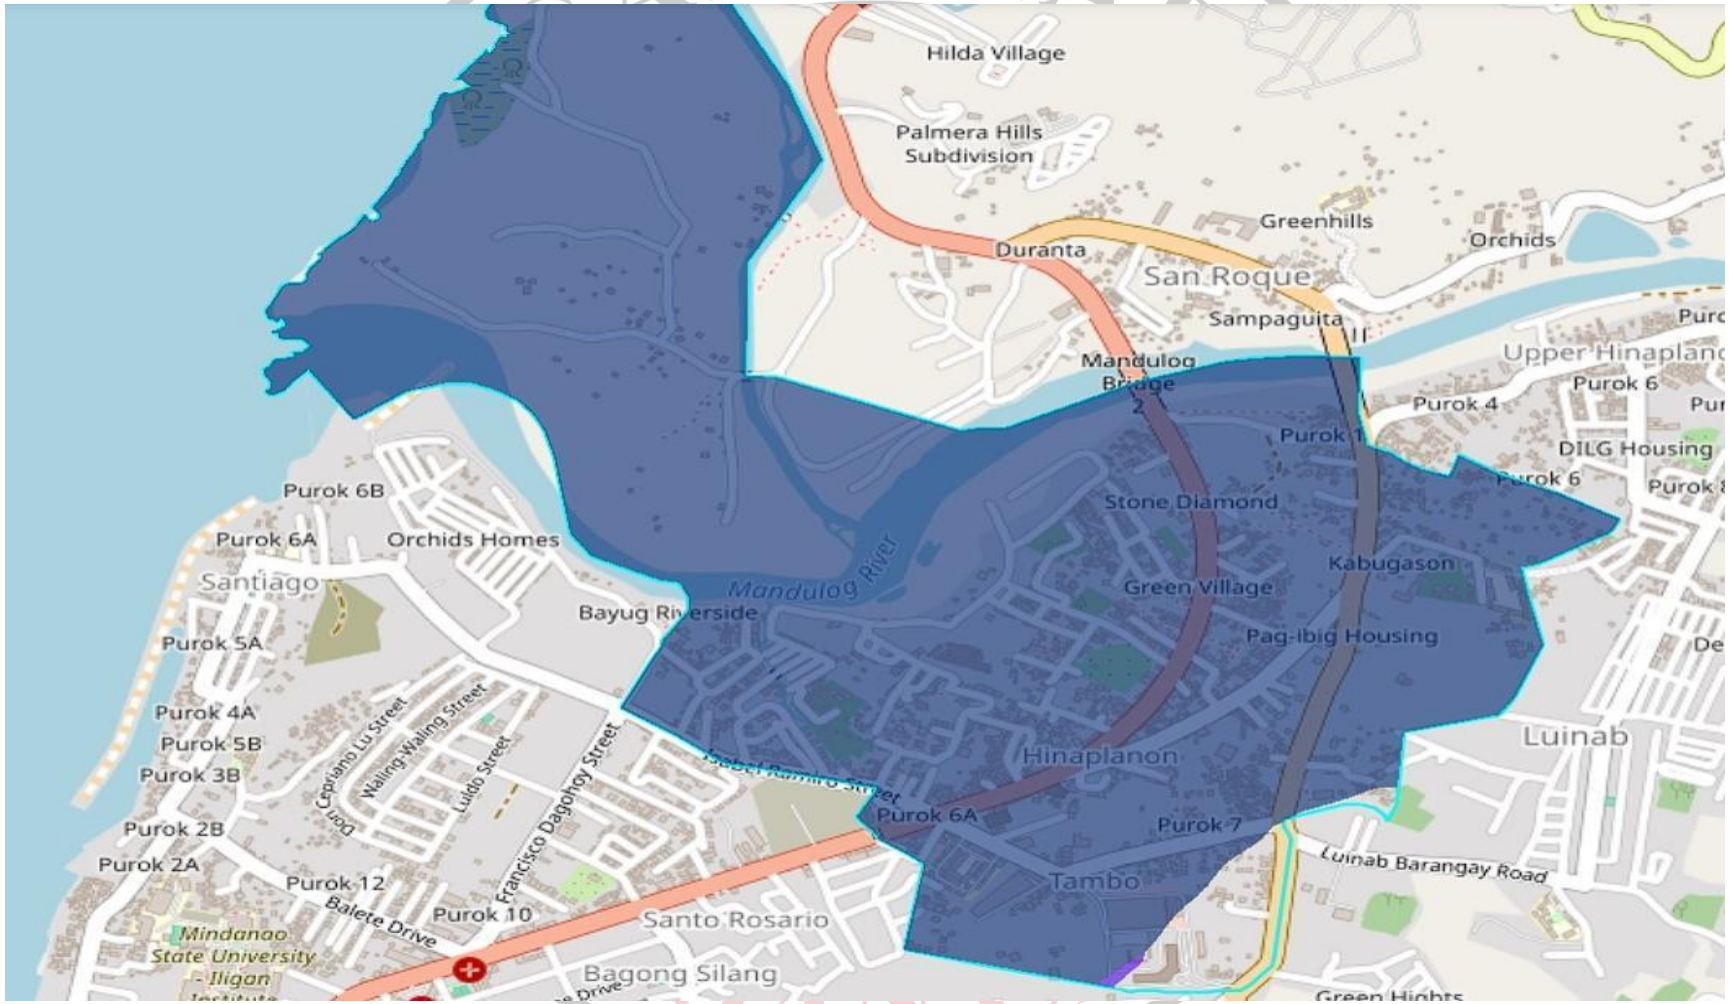

Capacity Assessment

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
Physical and Material		
Physical Characteristic	√	With enough and sufficient available evacuation centers
	☐	Forest and coastal areas have plenty of planted trees
	√	Regular cleaning and repair of drainage canals
Early Warning System	√	With complete response equipment and materials that can be used in times of emergency or disaster
	√	Early Warning System (EWS) for specific hazard is established and posted in different parts in the barangay which is visible to population and vulnerable groups
	√	Early Warning System (EWS) is easy to understand because it is written in local language with images
	☐	There is an available early warning system (ESW) for people with disability and other vulnerable groups
	√	There is mechanism, system and materials for disseminating warning to affected population.
	☐	Barangay has available generator with standby gasoline

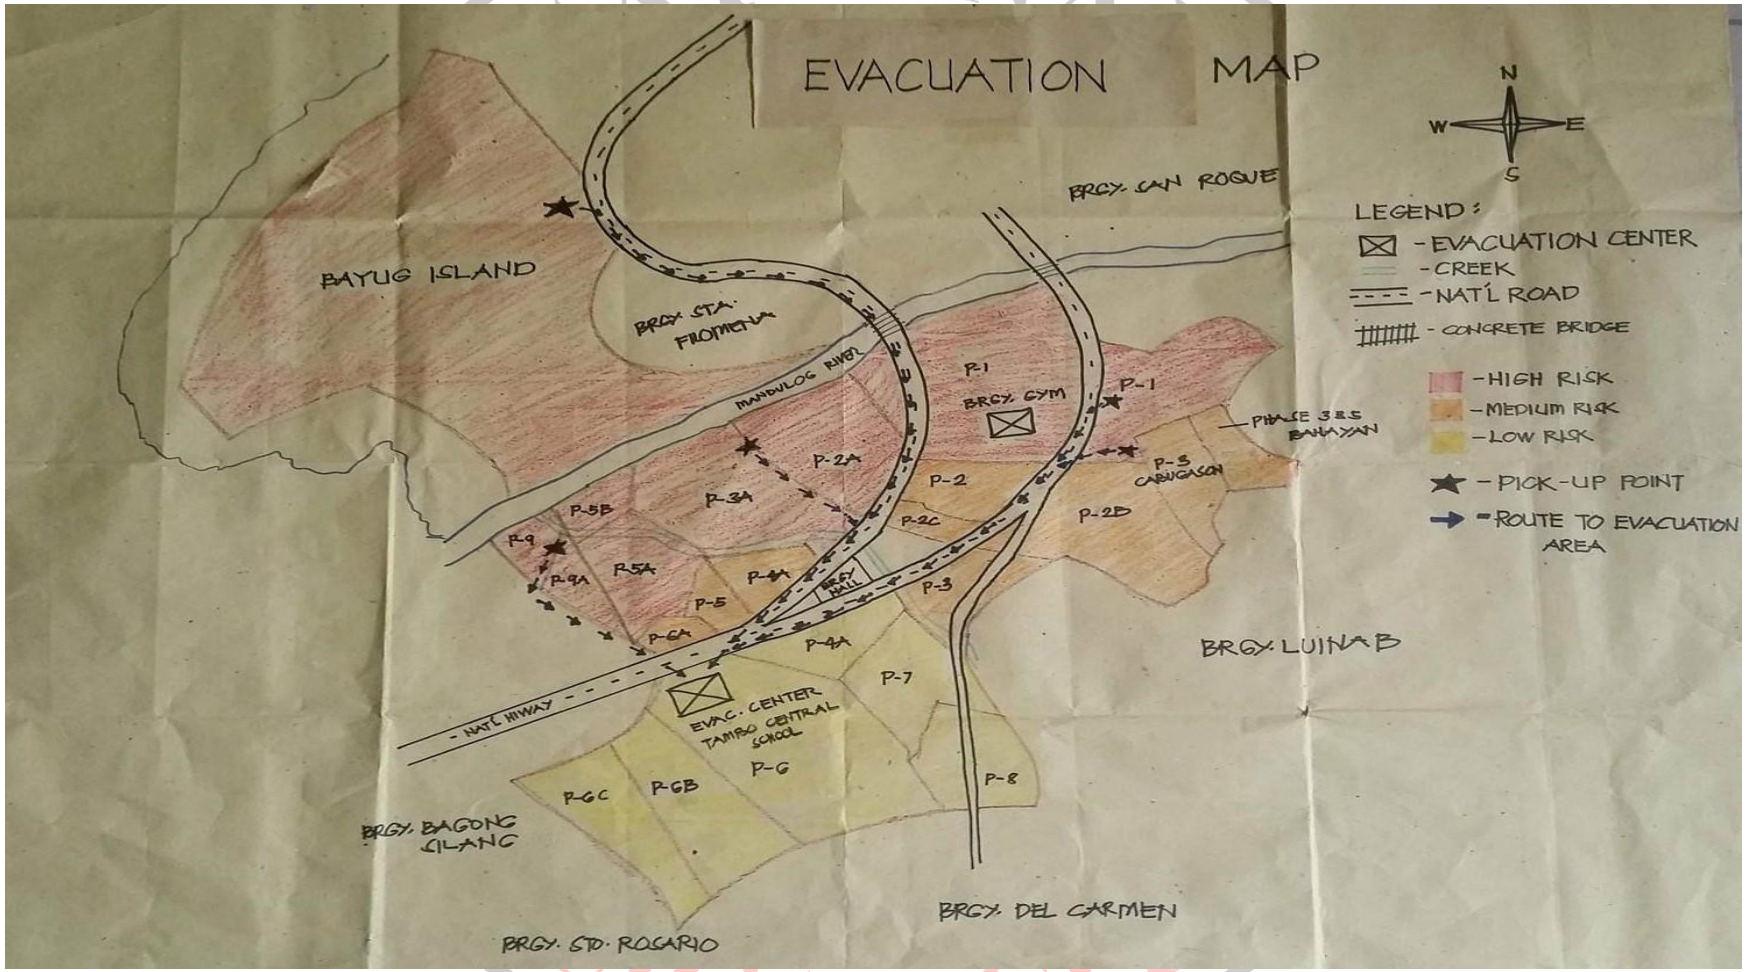

BARANGAY HINAPLANON ILIGAN CITY

Aspect	Check (√) the box if appropriate in your Barangay	Reasons Why the Barangay is Vulnerable to Emergency or Disaster
Social and Organizational	√	Community organizations are actively participating in all community development activities especially on DRRM and CCA
	√	Community organizations or sectors are activity participating in problem identification and assessment, planning, implementation, monitoring and evaluation related to disaster
Attitudinal/ Motivational	√	The spirit of "BAYANIHAN SYSTEM" is still exist
	√	Majority of the people in the community are listening to barangay officials and they follow the protocols that the barangay officials are implemented especially for the protection and safety on the population

C. Other Hazards.

Common issues and problem faced by the vulnerable groups or sectors such as children. youth, women, pregnant women and lactating mothers, elderly, people with disability, indigenous people in times of disaster or emergency.

Vulnerable Groups	**Check (☐) the box if present and (x) if none**	**Issues and problem face by each of the vulnerable groups**	**Immediate action or response of BDRRMC or barangay officials**
Children and Youth	☐	No separate comfort room for boy and girl	
	☐	Disruption of classes	
	☐	Separation from family members during disasters or emergencies	
	☐	Loss of shelters	
	☐	Loss of important documents such as birth certificates and school records	
	☐	Injury and psychosocial distress during disasters or emergencies	
Women	☐	Women can easily abused at the evacuation center	
	☐	Health problem	
Pregnant Women	☐	Can't walk quickly to the evacuation center	
	☐	Lack of equipment and facilities at the evacuation center to protect and monitor birthing pregnant women during disasters	

Vulnerable Groups	Check (☐) the box if present and (x) if none	Issues and problem face by each of the vulnerable groups	Immediate action or response of BDRRMC or barangay officials
Nursing Mother / Lactating Mother	☐	No spaces for breastfeeding mothers at the evacuation centers	
	☐	No available trained community personnel which can provide counseling to nursing mothers	
People with Disability	☐	No ramp at the evacuation center	
	☐	No specific early warning system for people with disability such as deaf and mute	
	☐	No available wheel chair at the evacuation center	
Elderly / Senior Citizen	☐	No ramp at the evacuation center	
	☐	Prone to illnesses	
	☐	Health problem	
Indigenous People	☐	No permanent settlement or shelters	
	☐	No source of safe potable water	
	☐	shelters are not safe to stay because it made up of light materials	
	☐	Absence of communication devices to receive warnings from the authority if there is an impending threat in the community

BARANGAY HINAPLANON ILIGAN CITY

COMMUNITY – BASED EARLY WARNING SYSTEM (ESW) FOR IDENTIFIED PRIORITY HAZARD

Warning Level	Criteria	Description / Interpretation of the Situation	Required Actions for every Warning Level
RED Alert	1	Need evacuation status	- ICDRRMC Chairman (City Mayor) places Iligan City under EVACUATION and RESPONSE status. - BDRRMC chairman relay the signal status to BDRRMC members & Purok Presidents and to implement the evacuation. - Transportation, Security & Health task units proceed to evacuate. Pick-up points where pre-postponed vehicles are located. Other evacuees nearer to the evacuation centers go directly through their own means (walking). - Protection, CCCM, Health and MDM clusters are dispatched to assist evacuation movements: BHWs deployed to pick-up points.
ORANGE Alert	2	Preparedness status	- At this alert level, BDRRMC chairman transmit the said advisory to BDRRMC members & Purok Presidents. - monitoring the river & creek conditions
YELLOW Alert	3	Alert and monitoring status	- DRRMO transmits advisory No.1 (Alert and monitoring status) to the DRRMC Chairman. - The BDRRMC chairman will then transmit the advisory to all BDRRMC members and Purok Presidents. - Continue monitoring rainfall and river conditions. (CVOs/Tanod/Volunteers)

FLOOD DUE TO HEAVY RAINFALL

Warning Level	Criteria	Description / Interpretation of the Situation	Required Actions for every Warning Level
1	Rain at 1-2.5 mm per hour	Alert Stage	Monitoring of river condition Bandillo Inspection of Evacuation Centers
2	Rain of 2.5-4.5 mm per hour	Preparedness Stage	Activate BDRRMC Preparation for evacuation Preparation of transportation of & equipment Acquisition of food and supplies Inventory of response equipment
3	Rain of 4.5 to 5 mm per hour	Evacuation stage	Evacuation movement Strategic deployment of vehicles Distribution of food supplies

Republic of the Philippines
CITY OF ILIGAN
Barangay HINAPLANON

Executive Order No. 5 Series of 2024
_____,2023

CREATING THE BARANGAY DISASTER RISK REDUCTION AND MANAGEMENT COUNCIL (BDRRMC)

WHEREAS, Presidential Decree 1566 provides for the strengthening of the Philippine disaster control capability and established the National Program of Community Disaster Prevention;

WHEREAS, RA 10121, or the Philippine Disaster Risk Reduction and Management Act of 2010 provides for the creation of local disaster risk reduction and management councils and enumerates their functions;

WHEREAS, in order for this Barangay to comply with this mandate, reactivation and reorganization of the Barangay Risk Reduction and Management Council (BDRRMC) is necessary;

NOW, THEREFORE, I, **NAME OF PB**, Punong Barangay of **HINAPLANON**, Iligan City, by virtue of the powers vested in me by law, hereby reorganized the composition of BDRRMC, with the following compositions:

CHAIRPERSON:, **GIRLIE N. CADALIN** Punong Barangay
MEMBERS:

KAG. VERONICO S. ECHAVEZ	Sangguniang Barangay Member 1
KAG. CLYDE S. FERNAN	Sangguniang Barangay Member 2
KAG. ISABELO M. MARIQUIT JR.	Sangguniang Barangay Member 3
KAG. NILA B. BORDAJE	Sangguniang Barangay Member 4
KAG. RIO M. GONZAGA	Sangguniang Barangay Member 5
KAG. JUDITH S. ERMAC	Sangguniang Barangay Member 6
KAG. LEONILA R. ARNOCO	Sangguniang Barangay Member 7
MRS. MAVIE E. ARBON	CSO/NGO Representative
MR. RENE SALAZAR	CSO/NGO Representative

SECTION 2. FUNCTIONS.

The BDRRMC shall perform the following functions.

1. Establishes the Barangay Disaster Operations Center.
2. Formulates Disaster Preparedness Plans.
3. Coordinates with the BDOC the disaster operation activities of its tasked units.
4. Submits recommendations to the Sangguniang Barangay for the declaration of State of Calamity in the Barangay

SECTION 3. EFFECTIVITY.

This Order shall take effect immediately.

GIRLIE N. CADALIN
Punong Barangay

Republic of the Philippines
City of Iligan
Barangay Hinaplanon

EXCERPT FROM THE MINUTES OF THE REGULAR SESSION OF HINAPLANON BARANGAY COUNCIL HELD AT ITS SESSION HALL FOR THE MONTH OF DECEMBER LAST DECEMBER 10, 2024

Present:

Girlie N. Cadalin	Punong Barangay
Veronico S. Echavez	Barangay Kagawad
Clyde S. Fernan	-do-
Isabelo M. Mariquit Jr.	-do-
Nila B. Bordaje	-do-
Rio M. Gonzaga	-do-

Leonila R. Arnoco	-do-
Christian Jay I. Ermac	SK Chairperson

Other Present:

Maria Kharen L. Jamon	Barangay Secretary
Churchille P. Nadayag	Barangay Treasurer

RESOLUTION NO. 023
SERIES OF 2024

A Resolution Adopting the Barangay Disaster Risk Reduction and Management (BDRRM) Plan of Barangay Hinaplanon for CY 2024-2026

Whereas, Disaster and emergencies are fundamental reflections of life in which, they are consequences of the way the society structures themselves, economically and socially, the way societies and states interact, and the way the relationships between the decision makes are sustained;

Whereas, Republic Act No. 10121, otherwise known as the Philippine Disaster Risk Reduction and Management Act of 2010 was signed into law on May 27, 2010 which amend Presidential Decree No. 1566 and all other related laws, decrees, executive orders and issuances;

Whereas, the said law mandates the formulation and its implementation of comprehensive and integrated barangay disaster risk reduction and management plan also known as BDRRM plan in accordance with the framework as prescribed under RA 10121 and the Operation Listo;

Whereas, it has been agreed and endorsed by the BDRRMC to this body to approve the BDRRM Plan for CY 2024-2026;

Whereas, the BDRRM plan was formulated in planning-workshop held last year of 2019 and was consequently approved by the Barangay Development Council;

Whereas, the 5% BDRRM Fund of CY 2020 was appropriated in the following manner;

PREPARED/MITIGATION (70%) - Php 627,738.00

QUICK RESPONSE FUND (30%) - Php 269,031.00

TOTAL:- Php 896,769.00

Republic of the Philippines
City of Iligan

Whereas, the BDC and BDRRMC already approved the BDRRM Plan of this barangay and endorsed to this body on December 3, 2024;

NOW THERFORE, upon motion of Hon. Clyde S. Fernan and duly seconded by Hon. Isabelo M. Mariquit Jr.;

RESOLVED, **AS THE SANGGUNIANG BARANGAY IN SESSION RESOLVES**, to Adopt the Barangay Risk Reduction and Management Plan of Barangay Hinaplanon for CY 2024-2026;

FURTHER, that the copies of this resolution be furnished to the Office of the Office of the Punong Barangay and other concerned agencies for their information and guidance.

_____ **CARRIED UNANIMOUSLY** _____

I HEREBY CERTIFY that the foregoing Resolution as found in the minutes has been officially passed and adopted by the body during the 2nd Regular Session last December 10, 2024 held at the Barangay Hall Hinaplanon, this city.

MARIA KHAREN L. JAMON
Barangay Secretary

RESOLUTION NO. 024
SERIES OF 2024

"A Resolution Approving the Barangay Disaster Risk Reduction and Management (BDRRM) Plan of Barangay Hinaplanon for CY 2024-2026"

WHEREAS, Section 21 of Republic Act 10121 otherwise known as Philippine DRRM Act of 2010, provides that "Not less than 5% of the estimated revenue from the regular sources shall be set aside as the DRRM Fund to support DRRM activities;

WHEREAS, the list of Programs, Projects and Activities embodied therein equitably represents the needs for the strengthening of the local DRRM in Barangay Hinaplanon as mandated by RA 10121;

WHEREAS, the members of the BDRRMC identified, formulated and prepared programs, projects and activities to be implemented for CY 2024-2026;

WHEREAS, it has been agreed and endorsed by the BDRRMC to this body to approve the BDRRM Plan for CY 2024-2026;

NOW WHEREFORE, on motion Kag. Isabelo M. Mariquit Jr. duly seconded by mass motion of the member of the council;

BE IT RESOLVED, AS IT IS HEREBY RESOLVED, By the Sangguniang Barangay of Hinaplanon Iligan City to A Resolution Approving the Barangay Disaster Risk Reduction and Management (BDRRM) Plan of Barangay Hinaplanon for CY 2024-2026"

UNANIMOUSLY CARRIED AND APPROVED, this 10th day of December 2024.
